## **Soul Scope - Introducing Yourself To You**

Above is your name, and birth details. Please check this information is correct.

Your Soul Scope symbolises and sheds light upon - your purpose, your needs, your talents, your doubts, your sensitive spots, your destiny and more.

## **Whilst Reading Your Soul Scope**

The overall accuracy of your Soul Scope is dependent on your birth time. Please bear in mind that although this horoscope is as accurate and informative as possible, there is no guarantee that every word will apply at this moment in time, or in the past or future. This horoscope maps out your potential; it is up to you what you make of this potential. You should always rely upon your own judgement and individual choice, will and inclination - which are precisely what your Soul Scope helps shed light upon.

Below your chartwheel the 'astrological positions' of your horoscope are set out by zodiac sign and degree which are interpreted in the following twelve chapters describing what they mean in your life. The number of ways in which the three factors of Planetary Aspects, Zodiac Signs and Houses can be combined is infinite.

The 'Aspects' are given a Star Rating from one to five to show their relative importance in the Profile. To the right of each pair of 'aspect' symbols is a group of five stars ★☆☆☆☆, the more dark stars there are the more powerful and significant the meaning of that aspect will be. The keys for the planets and the other symbols and terms used are given at the back of the report.

## **Gwyneth 's Chart Elements**

There are four Elements in astrology: Fire, Earth, Air and Water. Each Zodiac Sign belongs to one of these, and you have each of these Elements either Over-Emphasised, Under-Emphasised or Balanced - as follows:

### **Gwyneth 's Air Element Over-Emphasised**

You are inclined to live too much in your head, be 'airy-theory', and find it hard to 'get real'. 'Up in the clouds'.

To compensate, recognize that life does not always go according to some plan or theory. Do the 'practical' and see what *really* happens. Also, look to any planetary placements in Earth and Water Signs, and make the most of them.

### **Gwyneth 's Water Element Under-Emphasised**

You can be out of touch with your own and others' feelings. You are not naturally empathetic. You may also be prone to toxicity.

To compensate, look to the Moon and Neptune, and if you know the time of your birth any placements in 4<sup>th</sup>, 8<sup>th</sup> or 12<sup>th</sup> Houses, and make more of them. Detox regularly. Identify what few, if any, planetary placements you do have in Water, and make the most of them.

### **Gwyneth 's Earth Element Balanced**

You are practical without being dull. You are reliable, up to a point.

### **Gwyneth 's Fire Element Balanced**

You have a healthy drive without being too driven. You can amuse yourself and are easily enthused.

### **Gwyneth 's Chart Modes**

There are three Modes in astrology: Cardinal, Fixed and Mutable. Each Zodiac Sign belongs to one of these, and you have these Modes either Over-Emphasised, Under-Emphasised or Balanced - as follows:

#### **Gwyneth 's Mutable Mode Over-Emphasised**

There is a danger of your being a leaf in the wind, being indecisive and always adjusting to the requirements of others and prevailing circumstances.

To compensate, build your own sense of values and foundation and trust them; do not let yourself or anyone else compromise them.

#### **Gwyneth 's Fixed Mode Under-Emphasised**

You may lack persistence and cannot, or find it hard to, stand your ground.

To compensate, determine your convictions and stick by them. Resist being a yes-person; there's seldom any future in it.

#### **Gwyneth 's Cardinal Mode Balanced**

You have a healthy sense of initiative.

## Chapter One - Your Ascendant: Appearance and Persona

AS in ♋

### **Pisces Rising**

You experience your body as one big feeler or antenna, so you are very open to pleasure and pain, and therefore you identify with whatever stimulus seems the most appropriate to your ever-shifting outlook. If you feel like languishing ecstatically, then you become an exotic hedonist; if guilt prevails, then you are drawn to pain and punishment, or purity and asceticism. When feeling positive and noble, the artist or the healer appears as your persona. The list is endless - and likewise, you can appear to be many things to others.

Sooner or later your life has to be organized in a fashion that stops your various identities constantly changing into one another, for this breeds some confusion in others, and oceans of it in yourself. In order to acquire this integrated identity, you should embark upon a definite task or service in order that your super-sensitivity can be positively employed, otherwise you are in danger of dissolving into the boundless.

Such sensitivity could be divided into three types: Intuitive-Healing; Imaginative-Inspiring; Mystical-Enlightening. In the first case, it is your soft and soothing presence, which is also deep and powerful, like the sea that can give rise to a healing ability. In the second, the myriad impressions you receive from your inner and outer environments can be translated into sound or vision or words. In the third case, your psychic awareness allows you to tune into presences, atmospheres and ethereal realms in such a way as to broaden and enrich your own and others' senses of what constitutes reality.

In order to balance out and focus these subtleties, you tend to attract partners who are helpful and discriminating, and point out the precise and practical details of life.

Neptune is your Ruling Planet, which governs the link between your exterior being and your interior being. So study Chapter Eleven - Your Neptune Profile, with this in mind.

## Chapter Two - Your Sun profile: Your Will and Purpose

### Sun in Libra

Your essential purpose in life is to bring balance, justice or harmony to whatever it is in your world that you regard as important. You are naturally equipped for this in that you are only too aware of the fact that there is a right and a wrong, a rough and a smooth, a pleasant and an unpleasant, etc, etc. side to every situation and person.

It is this innate awareness of the ambiguities of life that gives rise to Libra's renowned indecisiveness. But really there is only one basic decision that you have to make. This is that you arrive consciously at a firm set of social values. This means that you have to ascertain what you think is important to society in your eyes and what you can do that will contribute to society in that respect.

Indeed, that contribution may be simply the establishing of a balanced relationship, or a balance within yourself. Anyhow, until you have begun to achieve this end, this social contribution, you will most likely vacillate between what you feel others expect of you and what you really want to do - something of which you are only partly conscious.

This in turn can lead to your being rather superficial as you use your innate sense of harmony to blend in with everything and everyone. Or, perversely, you may even be quite deliberately uncooperative as a kind of overreaction to your basic but vapid agreeability. No other Sign can draw attention to beauty and justice in such a beautiful and just way as Libra can - when you know what your pitch is.

### Sun in the Seventh House

All of this is most likely to focus upon, and be caused by, how you deal with and experience other people and their responses to your ego expression as described in this your Sun Profile. So what tends to happen is that you live out your will and life through others, and one other in particular. Such an automatic putting yourself in someone else's shoes does give you a profound ability to function well in as a therapist, or in public relations or any other people oriented activity.

What you have to constantly be wary of is losing yourself in the identity of another or others, or looking for some heroic figure or father figure in them. Remember, that as you live and find yourself through others, they revolve around you. Others are the rim of the wheel - but you are the hub.

## Your Sun Aspects

### Sun allying with Moon

A very basic and natural quality of yours is that everything, which you do in this respect, is backed up by your feelings and just because it is so natural you can tend to overlook or underestimate it. Most people do not have this good relationship between what they are and what they feel. There is something fundamentally wholesome about you that provides a sound basis to whatever else you are striving to do. Again I say: do not underestimate this.

### Sun uniting with Mercury

To assist you in these matters you do have a particularly active mind and you take pride in making good use of it. Your powers of reason are therefore higher than average but this can incline you to worrying as you try to work everything out in your head. So, every so often, remind yourself that there is far more to life than just what you are thinking. Be that as it may, your bright intellect is a more or less constant source of information and stimulation to others and so you attract interest fairly easily.

### Sun uniting with Mars

You have quite a strong and resilient nature. You are built for action and as a rule you have no trouble getting on with the job in hand. You are decisive, forthright and competitive and other people pick up on this and respond to it - although not necessarily that positively. You need to know what you want, otherwise what could be a mixture of desire and aimlessness or sheer obstinacy will create far more enemies than allies. Bear in mind that your undeniable drive and energy is ultimately only as good as what you are directing it towards. Your primary requirement is finding a worthwhile cause to promote.

### Sun challenged by Jupiter

You tend to look for the confidence that you lack in yourself in other people - a need for confidence, however, which your bright and optimistic air gives the lie to. When you do find it in another though, after initially being excessively admiring, you can then come to resent or envy them for having what you have not and are pompously self-protective.

It's almost as if you are afraid to live up to your own very real generosity and sense of goodwill. To put it another way, you have a strong faith in life and yourself but unless you learn to accept your own inconsistencies, or what is foreign or morally objectionable to you, then that 'faith' will prove unreliable in the face of real challenges. Bearing goodwill to others is the key to your having goodwill towards yourself, rather than merely expecting too much of others, or of yourself for that matter.

### Sun working with Neptune

Pervading all of your being is a very natural sense of love and acceptance. Because this makes for a rather passive disposition, you are inclined to turn the other cheek rather than take issue. Any more aggressive instincts that you might have are more likely to be used protectively. All in all though, you have the wisdom to know that letting life take its own course is bound in time to deliver you to your rightful place. However, do not underestimate and therefore fail to make something of your innate ability to inspire and be inspired - be it through music, visual art, drama, literature or in the sphere of healing.

### Sun uniting with Pluto

Deep in the core of your being lies something profound and powerful. You may not have a particularly conscious idea of what it is, but you are not going to let anyone take it, or you, lightly. It gives, or rather burdens, you with the feeling that there is a dark force in life that could be out to get you. If you identify too closely with this notion then you are on your way to being either a megalomaniac or a self-destructive manic-depressive, or, being in the clutches of one.

If, on the other hand, you purify your own intentions, and accept yourself as being a steward of, or a channel for this power, then whatever you do in life will be deeply effective. But through self-study or intimate relating you have to reach your own depths first, for that is where the power lies. You may find that your father plays, or has played, some part in what could be called this power complex, with him being highly influential in your life in some way - for good or ill.

### The Sabian Symbol For Your Sun

Finally, to give a symbolic focus to the Sun in your Chart, here is the "Sabian Symbol" for the degree of the Zodiac at which it was placed at the time of your birth. The Sabian Symbols were devised by astrologer Marc Edmund Jones and a clairvoyant called Elsie Wheeler. They may be read as interpreted, taken quite literally, or be given your own more personal or subjective interpretation much as you would for one of your dreams.

Remember to bear in mind that the Sun represents the essence or core of your life and its purpose, and to note how its Sabian Symbol corresponds to your Sun Profile, and your Chart interpretation as a whole. The Sabian Symbol for your Sun is...

**"A MAN TEACHING TRUE INNER KNOWLEDGE"** - Only from personal experience and a connection with the core and root of one's very being can real awareness and intelligence spring, and thereby inspire and guide one's fellow creatures. **Keyword: UNDERSTANDING.** When positive, your essentially natural sense of what resonates within yourself as being relevant and harmonious, and thus automatically is helpful to others. When negative, intellectual pretentiousness the real intention of which is merely to impress or dominate.

## Chapter Three - Your Moon Profile: Your Needs and Emotional Responses

☾ in ♊

### **Moon in Gemini**

Your reigning need is to feel constantly in touch with what is going on around you. Equally, you have a natural sense of what is happening at street level so to speak. Such a common touch as you have, and the ready wits and gift of the gab that accompany it, are only too able to keep things light and manageable. That is, until your emotional responses to life around you become inappropriately superficial. You then find that what you are doing on either a personal or professional level ceases to have enough permanence or depth of satisfaction - and is therefore worrying you to death and keeping you awake at nights.

The formula that 'you only get as good as you give' is a very apt one for you. Perhaps you originally devised your blend of affability and flippancy to deal with a mother that was not easy to relate to in an honest or consistent way. An important point in your development is when you consciously commit yourself to a deeper involvement with whatever life is demanding of you and then trust your mental alacrity and your ability to dodge and weave when necessary, in order to negotiate the trickier reefs of human interplay.

☾ in 3rd House

### **Moon in the Third House**

All these feelings are greatly reflected in your relationships with siblings, your school years, and in how you go about your everyday affairs. Your feelings can lend themselves to the climate of the moment with some ease so occupations running from advisor to shopkeeper, writer to local gossip, are all naturals for you. Such an ongoing curiosity as yours both dislikes routine and can dispel it.

Indeed, you have the common touch and are invariably aware of what's happening locally. You can be intellectually stimulating, but may prattle on somewhat - it all depends what you fill your mind with - but fill it you will. Your ear-to-the-ground awareness is very useful in serving your Moon-Sign's needs, and it also enables you to keep your acquaintances, and even the general public, in touch with whatever you regard as nourishing, reassuring or emotionally significant.

## **Your Moon Aspects**

☾ △ ☉ ★★☆☆☆

### **Moon allying with Sun**

All these emotional or instinctual qualities of yours are not just passive ones waiting around for someone to make use of them. Well at least, they need not be. You are well able to employ them in a creative and profitable way, as distinct from living them out solely in a private or personal world. Your emotional make-up is vibrant and alive, so make it shine forth!

☾ △ ♀ ★★★★★

### **Moon allying with Mercury**

You have no trouble in conveying your feelings with the written or spoken word. Consequently, you are well able to keep social situations flowing and relaxed with your ready wit and natural poise. There is a slight danger of using your natural eloquence to evade pondering in much depth on anything. But when your mind and soul has something worth chewing on, you have the prized knack of putting it across to all and sundry. You also possess basic common sense.

### **Moon allying with Uranus**

You are very able to 'sus out' people and situations. You are the natural psychologist. Such a great sense of the truth may even frighten you, but it need not because this intuition of yours enables you to deal with most matters that life presents. You possess a lively and humorous mind that is also able to conceive of or manage quite large projects - that is, providing you have not used such a wonderful intuition merely to avoid life's challenges.

### **Moon opposing your Midheaven**

Last but by no means least, you need a secure home-base where all these feelings of yours can feel protected and have room to adjust to changes, or simply to the end of the working day. You also have a strong sense of your roots, which can mean anything from feeling well established family-wise, to having to dig down deep to discover where you truly belong; it depends upon what your Moon Profile indicates overall. Your father is the real key to your emotional state, whether it is a feeling of security or insecurity.

### **The Sabian Symbol for the Moon**

Now, to give a symbolic focus to the Moon in your Chart, here is the "Sabian Symbol" for the degree of the Zodiac at which it was placed at the time of your birth. As I mentioned in the last Chapter - your Sun Profile, the Sabian Symbols may be read as interpreted, taken quite literally, or be given your own more personal or subjective interpretation much as you would for one of your dreams.

Remember to bear in mind that the Moon represents your unconscious disposition and responses, and your emotional needs and security, and to see how its Sabian Symbol corresponds to your Moon Profile in particular, and your Chart interpretation as a whole. The Sabian Symbol for your Moon is...

**"A TOPSY SAUCILY ASSERTING HERSELF"** - A Topsy or black female house-slave has to represent the intuitive function firmly held in leash, but at least allowed into the home of her masters - meaning that she or it is believed to be tamed or harmless. But it is just this point that is used to seize the initiative and dare to become more one's own person. **Keyword: IMPUDENCE.** When positive, the good-humoured nerve that is able to win apparent superiors over to your worth and personal energy. When negative, merely playing at making a blow for freedom, and consequently not being taken seriously.

## Chapter Four - Your Midheaven profile: Career and Status

MC in 

### **Sagittarius at the Midheaven**

For your professional life to be satisfying and successful it needs to be ever expanding, growing beyond itself, so this poses some work or subject that is never finished - teaching, religion, philosophy, archaeology, anthropology, history, law, publishing; anything that is seeking to include and understand more and more. In a physical sense, this would also include any kind of sport or occupations involving travel.

You are happiest trying to reach as many people as possible; Sagittarius likes to bring and bind people together with a sense of enthusiasm. You also like plenty of room to operate so a restricting sort of work life is very inadvisable. Furthermore, religious influences in your life greatly affect your choice of profession or the moral way that you conduct it.

The Sign, House and Aspects of your Jupiter (see Chapter 8) will reveal more about the style and conditions of your professional position and development.

You also have the following planet or planets culminating overhead at the time of your birth. Such planets are said to be in the Tenth House. This further describes your career, status and reputation.

See Chapter 8 - Your Jupiter Profile

## Chapter Five - Your Mercury Profile: Perception and Mentality

♃ in ♎

### Mercury in Libra

The way that you think is based largely on how you feel in relating to others. Consequently, you're inclined to agree at the expense of failing to contact how you yourself actually feel about a given issue - until later, when you then have to 'agree' with someone else. All this results in the person to whom you relate most intimately becoming frustrated because they don't know which side of the fence you're on. What they don't see is that you're striving to keep the peace amongst a wide variety of people and opinions. However, the point that any close associate is trying to make is that you have to have a yardstick of your own; otherwise no-one will get your measure and they will consequently find you hard to take seriously. This would be a great shame, considering that your decision - when finally made - is the one most likely to be the fairest.

♃ in 7th House

### Mercury in the Seventh House

You like to have a partner who thinks and perceives things in this way too and who is generally stimulating intellectually. You also prefer to conduct your relationships in a very reasonable way. This is fine up to the point where the emotional side of things can't get a look in. You will then find yourself with an extremely emotional mate on your hands, as they demand that you respond with more than just your head. Alternatively, if you're an emotional type yourself, or lack mental confidence for some reason, then you will get someone else to do your thinking for you. This is fine as long as you're both happy with the arrangement, but there will probably come a time when you will have to sort out your own mental or learning problems. Potentially, your mind is very capable of tuning into the facts and figures about others, so public relations or some kind of demographic or agency work would be well starred.

## Your Mercury Aspects

♃ ♀ ☉ ★★☆☆☆

### Mercury uniting with Sun

These mental attributes of yours are further empowered by having the strength of your will behind them. You are an intellectual force to be reckoned with and your Mercury Profile as a whole will reveal just who and what you have to pit your mental muscle against. It will also reveal in what way you have a clear field of mental effort. In either case you could sometimes be accused of being a know-it-all. But then a shining mind like yours just cannot but help but cast a few shadows.

♃ △ ☾ ★★★★★

### Mercury allying with Moon

You have an instinctual awareness of the day-to-day workings of people and life in general. This could be called the 'common touch' - very complimentary to any occupation where you have to deal with the public on their own level. You are, in a word, streetwise.

♃ ♀ ♃ ★★☆☆☆

### Mercury uniting with Uranus

Furthermore, your interests extend to the scientific or metaphysical. There is an unusual cast to your mind that is attracted to the more offbeat and radical avenues of thought. Alternatively, you might find yourself opposed to these realms of thinking and the people involved with them, as you stand by your more logical viewpoint. In truth though, you are striving to see both sides - the intuitive but unprovable, and the rational - and present a balanced viewpoint as well.

## Chapter Six - Your Venus Profile: Attraction and Harmony

♀ in ♌

### Venus in Leo

You are the archetypal romantic. On the face of it you're madly affectionate, filled with fiery passions and inject masses of fun and imagination into your affairs of the heart. Consequently you can transport your paramour to previously undreamed of emotional heights. Inevitably though, this means that you have to understand that you're playing the role of king to your queen, or vice versa, as far as your love life is concerned.

In other words, the royal qualities of respect and nobility must be very alive in your breast if a relationship is to survive or live up to your fairytale expectations. Respect means that you must be mindful that both of you are entitled to equal amounts of freedom and commitment. Nobility means that both of you must behave in a manner that commands respect. The salient factor is that first you must set this example in order that your mate may be truly impressed by your great love - great because it is both generous of spirit and respectful of the other's individuality.

♀ in 6th House

### Venus in the Sixth House

These love feelings of yours are going through a process of purification so whatever is false, or unjust, or lustful about your social or romantic intentions has to be eliminated in order that a healthy relationship might happen. In fact, 'healthy relationship' sums up the only kind of relationship that you could really enjoy consistently.

Where there is a lack of purity in your loving you will experience loss, or illness - particularly to the throat, hips, kidneys or reproductive organs. You really have to work at love. Love and work also come together in that your work itself can be to do with harmony and beauty, or simply that you lend an air of grace and charm to your work place.

## Your Venus Aspects

♀ ✖ ♄ ★★☆☆☆

### Venus working with Saturn

It is through a process of gradual development that you learn to get the best and weed out the worst from your Venus Profile. This is because, whatever else might be said about you, you do have an in-built awareness of love and fair play, which in time, cannot but help come up with the goods. The goods in this case being a rewarding and stable love life or a satisfying means of artistic expression.

♀ ✖ ♅ ★★☆☆☆

### Venus working with Uranus

Most of these qualities of yours do have a relaxed feel about them and can, if you let them, attract free social and emotional interaction. Such lively sparkle should always make you desirable company. The essence of this trait of your personality is one of humans loving one another for being the individual humans that they are - so nothing should be allowed to get in the way of this!

♀ △ MC ★★☆☆☆

**Venus allying with your Midheaven**

You employ the attributes of your Venus Profile as described here in a professional capacity - or if you don't, you certainly should. Your strengths and weaknesses in this respect, either advance or hold you back in your career. In any event, art, grace, beauty, or a sense of harmony is central to your profession.

## Chapter Seven - Your Mars profile: Self-Assertion and Sexual Drive

♂ in ♍

### Mars in Virgo

You assert yourself best when you have learned (and use) some sort of technique then whatever you do; you do with thoroughness and precision. You are very exacting of others in their work - and sexually too - and you like to keep the score. You know how to hit the right spot, but make a fuss if your opposite number doesn't.

In effect, you have given yourself quite a tall order of satisfying your desires and your need for purity at the same time. This can mean that you put yourself out of the running altogether for a time - or work yourself into the ground trying to achieve perfection. If you allow yourself to become neurotic about this, your health could suffer. So relax and stop driving yourself to do the impossible when your best will more than suffice.

♂ in 7th House

### Mars in the Seventh House

Now it would seem that you initially experience these qualities of drive and self-assertion as coming from others - and one other in particular. This is especially so if you are female. This being the case, you are also more likely to encounter the negative aspects. In truth however, the nature and power of your own self-assertion is innately unconscious and so you encounter it through the reactions of others to it.

Indeed, your partner may very well embody these traits, but the fact still remains that he or she is being a role model for you - be it negative or positive. The more you claim this manner of forcefulness as your own, then the more you are able to be an effective leader of others, or at least a good example of how to assert oneself.

## Your Mars Aspects

♂ ♀ ☉ ★★☆☆☆

### Mars uniting with Sun

Because you have a sharp and forceful personality, you progressively become more and more conscious of the pros and cons of this situation. You keep pushing on, no matter what. Consequently, you are eventually able to win over others to your cause. This support, plus the ability to make considerable headway in life, is also due to the fact that you have the courage of your convictions.

♂ ☐ ♃ ★★★★★☆

### Mars challenged by Jupiter

You have a strong belief that your way of doing things is right - and you'll be forced to prove this time and again. In the process you become quite a crusader for whatever it is that you do believe in. You have a fairly abundant energy that enables you to sell, promote or fight for your cause, but this energy can also get you into scrapes owing to your sexual appetite or simply your failure to see when enough is enough. You must have sound values to guide your actions.

♂ □ ♄ ★★☆☆☆

**Mars challenged by Saturn**

Like it or not, all these matters concerning your manner of self-assertion have a strong lesson or sense of duty running through them. In other words, it is not a matter of choice as to whether you make the best of the positive traits and sort out the negative ones. You really have to. If not, you will come to regard anyone who blocks your progress as some sort of tyrant, when really they are there to test your powers of assertion.

Failing to grasp this point could also amount to being weak or ineffectual, or to being overly harsh. If you are female, you are likely to attract men who have trouble with their own masculinity, which can be expressed either as them being too hard and typically 'male', or conversely, somewhat unsure and indecisive. On a physical level, stiffness in your joints could result. All in all, you are able - or you are learning - to assert yourself in a disciplined and objective way.

♂ ♀ ♇ ★★★★★☆

**Mars uniting with Pluto**

Whether you like it or not, underlying all your sense of self-assertion there lies something very powerful - like a coiled serpent. It very much depends upon the make-up of your personality as a whole as to how you express this sense of power. At one extreme you could be (more than) a bit on the dubious side and use such forcefulness to get what you want by fair means or foul. At the other extreme, the force within you might even intimidate you, or have attracted abuse of some kind.

For this reason, you keep it under wraps - and you may do this quite unconsciously. But ultimately, such power as is in your possession needs to be tamed and put to some constructive use, or it could back up on you in a destructive way. In the process you may need to forgive yourself, or someone else, because you have misused it yourself, or another has used it against you. A healthy sexual relationship, intense physical activity, or something like drumming, will do much to absorb this energy - an energy that is basically of the healing variety.

## Chapter Eight - Your Jupiter profile: Faith and Understanding

♃ in ♑

### Jupiter in Capricorn

Your faith in life is built upon some sort of tradition. This could be a certain type of education, a religious, communal or professional tradition, material wealth, or something quite unusual but long-standing all the same. But this background, as much as it provides the backbone of society, is something that can keep you chained to its limitations as well as reassured by its traditions.

As much as your traditional set of beliefs and values can serve you well in the day-to-day sense, when change (even in the form of opportunity) comes your way, what normally holds you in good stead holds you back. So, if you find yourself stumped for knowing what course to take, then take a leap into the unknown - backed by your common sense and a belief in Nature's Laws. You will then find that your faith in life is not only restored but also regenerated.

♃ in 10th House

### Jupiter in the Tenth House

It is very likely that you will become well known for these qualities of faith and enterprise, as well as for other personal talents - possibly concerning law, drama, teaching, religion or the military. Having a prominent and affluent professional position - or being involved with something or someone prestigious - is more or less inevitable.

It is also quite possible that you could put too much store by your public or professional position and neglect your inner or home life. Generally speaking you have an enthusiasm for publicity, fame and fortune, but sooner or later you'd need to develop honesty and integrity in performing your duties - or disgrace could result and then you'd heartily denigrate success. Your mother's influence was (or still is) great concerning this inclination to excel and cut a dash in the outside world.

## Your Jupiter Aspects

♃ □ ☉ ★★☆☆☆

### Jupiter challenged by Sun

It's a fact that any negative traits regarding the nature of your beliefs, enthusiasms, cultural attitudes, or want of faith as described here, can get in the way of your progressing much in life at all. So you must pick out the best and discard the worst, if you wish to get on and enjoy life. By striving to do this you could create an increasingly alive and original concept of reality with which you could teach and inspire others.

♃ □ ♂ ★★☆☆☆

### Jupiter challenged by Mars

Others, particularly certain men, will contest your philosophy and attitude to life. This serves to harden your own convictions and should not be allowed to weaken your resolve. Equally though, over-reacting and getting on your high horse may earn you a reputation for being intransigent and a 'you versus the world' type of situation could disastrously follow. For success, cultivate moderation.

♃ □ ♇ ★★★★★

**Jupiter challenged by Pluto**

At the bottom of all this lies your desire to have a set of beliefs that accommodates and guides your deepest drives and fears so it is very likely that at some stage you came, or will come, into collision with whatever moral or religious influences prevail in your life. Sooner or later you embody, and have to overcome, some religious or cultural taboo - possibly concerning sex.

## Chapter Nine - Your Saturn Profile: Lessons and Responsibilities

♄ in ♊

### Saturn in Gemini

You are learning to ascribe the right value to logical thought. Considering that rational thinking has been dominating our society for the last few hundred years, you have to be extra careful how you do this. Either you are the type that virtually worships the intellect with everything in life having to have a logical explanation, or, you feel hampered by not being able to reason things through and can actually wind up being anti-intellectual.

Eventually you'll either find that you get confronted by a situation that defies logic, in which case you will need to get in touch with what your feelings and intuition are trying to tell you, or you might be confronted by a situation that you cannot feel or bluff your way through so you just have to work it out logically, or get down to some studying.

♄ in 4th House

### Saturn in the Fourth House

These lessons and necessities focus mainly upon your home or inner life and the sense of order that was laid down during your early years - especially by your father. If that sense was absent or restrictive, you may now go around with an inner feeling that something is missing or not good enough and then come to depend upon having very stable domestic security to compensate for this.

But in the long run of course it doesn't, because it's a want of something emotional rather than something material. In other words, at some stage, you will have to reaffirm that sense of belonging which was not forthcoming in childhood. At the other extreme, your early life might have been highly structured in a supportive way, thus giving you an inner sense of being in the right place at the right time.

## Your Saturn Aspects

♄ ✳ ♀ ★★★★★☆

### Saturn working with Venus

The good news is that you have it in you, as time goes by, to progressively consolidate your own worth and your relationships. This means that you are never alone for too long before someone or something (most likely your good sense of values and duty) rescues you from a difficult dilemma. Not without some effort though.

♄ □ ♂ ★★☆☆☆

### Saturn challenged by Mars

Many of the difficulties here have to do with the misuse of force, either by you or someone in your life. You are learning to use force properly and at the right time. Eventually you can become an expert handler of raw energy both in yourself and others. Until then - you will continue to collide with things and people.

♄ △ ♃ ★★★★★☆

### Saturn allying with Uranus

You stand to alleviate any problems here, both for yourself and for others. You do this through your inventive streak, which employs original means and ideas, or the latest technological, metaphysical or psychological methods. Being flexible and up-to-date are useful assets of yours.

♄ ♀ MC ★★☆☆☆

**Saturn opposing your Midheaven**

Those qualities of yours, which I have described above under Saturn in the Fourth House, are strongly accentuated so I suggest that you note them as such and how they relate to the whole of your Saturn Profile.

## Chapter Ten - Your Uranus Profile: Awakening and Freedom

 in 

### Uranus in Libra

You belong to a generation (born during the late 1960's to mid 1970's) whose intention was to reform attitudes towards marriage, relating and social conduct in general. If you have a strong degree of social conscience, you will want to find some way of changing the laws and principles that guide and govern the people. Your generation is alive to the fact - or can be easily awakened to it - that a single powerful idea can change the face of society, or even the world.

 in 7th House

### Uranus in the Seventh House

Forces for change and urges for freedom make themselves felt in an area where most of us would like stability: relationships. But, consciously or unconsciously, you are attracted to unconventional relationships and partners, ones that keep you alive to the fact that you are both individual beings with individual desires for more than just a secure and predictable social and love life. Shared interests, often of a curious or alternative kind, help to keep a relationship alive because it 'marries' your minds together.

This is something you need in addition to a merely emotional or physical bond. You could say that you are awakening to the importance of friendship over romance. Ideal partners are original, inventive types - even with a touch of genius, craziness, or both and whatever is suppressed, or denied, as odd in yourself is bound to be represented in your mate - at double strength. It can be guaranteed that you will never be able to take each other for granted, because you'll always surprise one another.

## Your Uranus Aspects

   ★★☆☆☆

### Uranus allying with Moon

You instinctively manage all these forces for change and liberation with apparent ease and an innate sense of what is true and right. You find that by being loose and open to the promise of the future, and avoiding tucking yourself away somewhere 'safe', you're able to tune in to your own truth, which is your creative spark. You can also guide others to theirs and reassure them in times of stress.

   ★★☆☆☆

### Uranus uniting with Mercury

The pressure to change and reform as described here can impinge particularly strongly upon the way that you think on a day-to-day level. It's important that you come to terms and deal with these disturbances in the radical manner I have suggested here otherwise, you will find yourself nervy and mentally stressed as you vainly juggle conflicting interests.

Positively speaking, this tension between your need for change and your need for mental order and expression breeds in you the ability to come up with original ideas and solutions, as well as having a speedy, computer-like mind, which albeit suffers the occasional 'virus' of scattered or irrelevant thinking.

♃ ✖ ♀ ★★☆☆☆

**Uranus working with Venus**

Eventually it dawns on you how attracted you are by the call to freedom, innovation and experimentation where interpersonal relationships are concerned. When injected with new ideas about yourself in this way and through using your actual artistic gifts or developing your very real but latent ones, you find happiness for yourself and for others who gain from your style and social awareness.

♃ △ ♄ ★★★★★

**Uranus allying with Saturn**

As your life progresses you come to learn that a dash of prudence or convention serves to further your more alternative interests or, conversely, you come to appreciate that a spot of the unusual or idealism makes tasks and duties easier or more acceptable. You have a sense of how the old can blend with the new.

♃ ✖ MC ★★★★★

**Uranus working with your Midheaven**

Through your efforts to make the most of the positive qualities of your Uranus Profile you attain (or come to attain) a professional position that actually embodies those qualities of scientific, metaphysical or humanitarian progress.

## Chapter Eleven - Your Neptune Profile: Sensitivity and Spirituality

♆ in ♐

### Neptune in Sagittarius

You belong to the Neptunian generation born between 1970 and the mid 1980's. As this generation came of age, confusion was experienced with regard to what was right or wrong. The underlying reason for this was a want of distinction between the Law of Man and the Law of God. In other words, this generation, and the time they were growing up in, had to contact a more spiritual and less material, yet at the same time practical, means of directing human morals and appetites. A real sense of the divine or the quantum began to emerge now.

♆ in 9th House

### Neptune in the Ninth House

For you, such sensitivity and spirituality manifests itself in a search for some belief or higher meaning to life. Any need that you have to find an 'answer' or a 'way' is strongly influenced by emotional fears and fancies. You are therefore liable to convince yourself that anything or anyone who offers an all-inclusive philosophy (or way out) of life is worth giving up a lot for.

This can involve anything from going off on a journey to some exotic foreign part to find what you are seeking, or just dropping out of college for a life of drugs or alcohol. Anything that takes away from the dull everyday plod of life is what exercises a strong pull.

This can lead you down many a false trail; but this is all part of your search - as you probably know. For you the road really does lead forever on - and with some discipline and creative imagination you can then turn this into a positive feeling and convey this sublime truth to others in some way.

## Your Neptune Aspects

♆ ✳ ☉ ★★★★★☆

### Neptune working with Sun

You have a healthy, constructive and creative sense of matters relating to sensitivity and spirituality. You are therefore able and willing to incorporate them into your life as a whole. Your sense of idealism and compassion is central to your life's purpose and it becomes increasingly obvious to you that all living things are one. You are qualified to champion and exemplify this truth.

♆ ✳ ♇ ★★★★★★

### Neptune working with Pluto

You're helped in taking steps towards enlightenment by the fact that doing so has become a more generally accepted pursuit since the horrors of World War II. However, you will need more than this point alone to set you off on this path.

♆ □ AS ★★★★★☆

### Neptune challenging your Ascendant

Your emotional fears and wounds and the dreams that compensate for them, get in the way of your having a realistic relationship - or having one at all. You will need to track down what it is that caused them in the first place.

## Chapter Twelve - Your Pluto Profile: Power and Transformation

♇ in ♎

### Pluto in Libra

You are a member of the Plutonian generation (1971 - 1984) that grew up into a world where revolutionary changes began to take place with regard to marriage and social values. Being a child of a single parent family would be a typical example of your generation's social conditions.

In any event, you grew up in an atmosphere of great uncertainty as to what social justice and the social norm were. Essentially, as a generation, you are re-writing the social rulebook, which unavoidably means being without, or refusing to observe, the old rule book.

♇ in 7th House

### Pluto in the Seventh House

The issue of power and transformation presents itself to you in your dealings with others - especially in a one-to-one relationship like marriage, so you're forced to confront the true nature of your deepest fears and desires and to establish a balance of power between you and your mate, or whoever.

This is not easy because it necessitates some in-depth analysis of what (or who) in your life has been allowed to dominate you. Otherwise your partner could appear to take on the role of being the dominant one, when really it's something in yourself that unconsciously wants to be dominated. As if to fit this scenario, your mate may well be powerful, or dis-empowered too in some way.

Both of you could possibly even enjoy this dominator/dominated kind of relationship but, sooner or later, your relationship will have to be psychologically debugged if you are to avoid its going through an excruciatingly slow death. It's better to go into the storm, purge your doubts and fears, for upon this will follow either the refreshment of a renewed relationship, or the release of having no relationship at all.

## Your Pluto Aspects

♇ ♃ ☉ ★★★★★☆

### Pluto uniting with Sun

Your life in general revolves around these issues of power and transformation. It is important therefore that you understand quite what this entails because you can either feel filled with awe at the sheer profundity and inevitability of things, or manipulate others, or be manipulated by them as a result of getting caught up in power games and ego conflicts. Yours is either a sense of destiny or doom. It all depends whether you allow yourself to let go and be taken over by something positive or negative. For you it's alpha and omega time: do or die.

♇ ♃ ♂ ★★★★★☆

### Pluto uniting with Mars

Until you sort out or come to terms with the negative qualities of your Pluto Profile, you are in danger of feeling dogged by intense urges which can affect you in certain ways, like being under the sway of an oppressive man, or being one - or in some other way that is detrimental to your well-being. The basic challenge here is to contact this raw energy and convert it into something positive - like athletic prowess, putting powerful resources to good use, etc.

♇ □ ♃ ★★★★★

**Pluto challenged by Jupiter**

A religious or self-righteous streak runs through these deeper feelings and compulsions. On the one hand this can make you a bit of a 'hell fire and damnation' type of lecturer or, on the other hand, you make sure that your deepest desires are guided and tempered by ethical principles which are equally deeply held.

♇ ✕ ♆ ★★★★★

**Pluto working with Neptune**

You know that we're all in the same boat and that it's a case of sink or swim. So, you look around, smile at your fellow human beings and pull together!
